•**Swami Keshwanand Shikshan Sansthan,Sikar** — *2020*
High School (10th Standard) — Percentage: 88.33

PERSONAL PROJECTS

•**Kumple News(KN)** — *GitHub*
A responsive blog platform with authentication, media posts, category filters, and real-time content updates.

- Tools & technologies used: HTML, CSS, JavaScript, Firebase (Firestore, Auth, Storage)
- Successfully deployed a fully functional platform that allows real-time content updates, secure post management, and dynamic news filtering, enhancing user engagement and content accessibility.

•**Home Server** — *GitHub*
A service provider platform delivering home services like electrician, plumbing, and cleaning at users' doorstep.

- Tools & technologies used: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB (or your DB), REST API, Payment Gateway
- Built a full-stack web application with user registration, service listings, booking system, and admin/vendor/customer dashboards. Implemented secure authentication, real-time order tracking, and seamless online payments to streamline home service delivery.

•**StackIT** — *GitHub*
A Q&A platform inspired by Stack Overflow for users to post, browse, and answer programming-related questions.

- Tools & technologies used: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB
- Developed a user-friendly platform with features like question posting, tagging, upvoting/downvoting, search, and authentication. Implemented responsive UI and efficient backend logic for scalable question-answer interactions.
